Please be advised that the Department of Resources Recycling and Recovery (CalRecycle), acting as the Solid Waste Enforcement Agency (EA) for the City of Stockton, has received and approved a Report of Facility Information (RFI) Amendment per Title 27, California Code of Regulations (27 CCR), Section 21665(c). This public notice was prepared pursuant to Title 27 CCR 21660.1.

Project Description

USA Waste of California, Inc. d.b.a. Stockton Scavengers Association Transfer Station is an existing large volume transfer/processing facility operating under a full Solid Waste Facilities Permit issued on October 9, 1996. The application package to amend the RFI requests the following changes: relocation of waste storage bins to an enclosed structure; extension of waste storage and removal frequency from 48 hours to 7 days; updates to site personnel and management; and updates to the site maps that include an office.

The EA finds that the proposed changes are consistent with all applicable certified and/or adopted California Environmental Quality Act (CEQA) documents, is consistent with State Minimum Standards, and does not conflict with the terms and conditions in the current Solid Waste Facilities Permit.
